Letter of Support

To Whom It May Concern,

This letter is to confirm that **ZK Engineering**, Pakistan, is engaged with **Johnson Controls Singapore** in the identification and development of opportunities for fire protection and fire suppression solutions within the Pakistan market.

As part of our ongoing cooperation, Johnson Controls Singapore may provide technical support, budgetary proposals, preliminary system recommendations, product information, and commercial discussions for projects being pursued by ZK Engineering, subject to project-specific review and approval.

We welcome their engagement with project stakeholders where Johnson Controls and TYCO fire protection solutions are being considered.

This letter serves as confirmation that ZK Engineering is working with Johnson Controls Singapore in the promotion and development of project opportunities in Pakistan and may present this letter to customers, consultants, contractors, and end users as evidence of this business relationship.

We look forward to supporting ZK Engineering on future project opportunities and strengthening our cooperation in the Pakistan market.

Should any clarification be required, please contact the undersigned.

Sincerely,

Shanice Koh
